

1099s & 1099Gs

Income Tax - Incorrect 1099Gs

What do I do if the 1099G I received from the Colorado Department of Revenue is incorrect?

First, verify that the refund amount on the 1099G is indeed wrong. The amount is not necessarily the same as last year's refund check. The amount of your refund check must be adjusted by:

- subtracting the state sales tax refund
- adding amounts donated to charitable contributions on [Form 104](#)
- adding amounts intercepted as payment for back taxes or debts to other state agencies
- adding amounts applied to next year's estimated taxes.

If the refund amount is incorrect, contact the Department of Revenue by e-mail from the Web at www.taxcolorado.com under "[Contact Us](#)" or call (303) 238-SERV (7378) with the information to request a corrected 1099G.
